Thank you for purchasing a Quint Audio A-series power amplifier

This manual contains essential information on installing and operating the product correctly and safely. It is necessary to read this manual carefully in order to become familiar with these procedures.

Keep the manual for future use. This manual forms an integral part of the product. Reselling of the product is only possible if the user manual is available. Any changes made to the product have to be documented in writing and passed on to the buyer in the event of resale.

As part of a continuous evolution of techniques and standards, Quint Audio BV reserves the right to change the specifications of the product and the content of this manual without prior notice. Please check the Quint Audio BV web site at www.quintaudio.com on a regular basis for latest updates.

Should the product requires repair or if information about the warranty is needed, please contact an approved Quint Audio BV distributor. The address of the nearest distributor is available on the Quint Audio BV web site.

Best regards,

The Quint Audio people

A23 / A41 / A42 Power Amplifier Series

- Class D power amplifier
- Switching mode power supply
- Active power factor correction
- High efficiency design
- Compact, light weight, road proof
- Wide range power supply; 100~240VAC / 50~60Hz
- Temperature controlled variable fan cooling

Safety notes in this manual

The '**WARNING**' sign refers to potentially dangerous situations and/or dangerous voltages that may lead to personal injury.

The '**CAUTION**' sign refers to a potentially dangerous situation which may lead to damage to the equipment.

The '**IMPORTANT**' sign refers to a situation that may cause malfunction of the equipment.

Unpacking

Carefully open the shipping carton and check the product for any noticeable damage. Each Quint Audio BV product is tested and inspected before leaving the factory and should arrive in perfect condition. If found to be damaged, notify the shipping company or the distributor immediately.

Only the consignee may initiate a claim with the carrier for damage incurred during shipping. Be sure to save the carton and packing materials for the carrier's inspection. Attachment of the equipment (such as machine foot, manual bag, silicagel, etc.) please put them in the place where children can not get them.

All system components must be inspected before use, in order to detect any possible defects.

Use

The system should only be installed or fitted in accordance with the manufacturers recommendations. The audio amplifier may not be used for other purposes than it is meant for.

Accessories

Proper operation of Quint Audio equipment is only guaranteed if original Quint Audio accessories and mounting materials are being applied. Quint Audio is not responsible for any equipment and accessories provided by third party manufacturers nor for the consequences of the use of these parts.

Water and moisture

The amplifier should never be used in the immediate vicinity of water; prevent the possibility of entering water and moisture or any other fluids and substances.

Cooling

The direction of the airflow cooling the equipment is from front to back.

Do not block the ventilation holes. Please keep enough space around the equipment.

To prevent heat from building up in an amplifier rack, make sure cooling air can leave the rack freely.

airflow: front to back

Front panel controls & indicators

* Under voltage, DC, Overload limiter, Short circuit protection Over temperature (If the temperature of the internal electronics exceeds 85 degrees Celsius, output will be reduced. If the temperature reaches 90 degrees Celsius, the power amplifier will shut down. As soon as the temperature has dropped to a safe value (<85 degrees Celsius), the amplifier will restart automatically.)

Back panel connectors

A23; 2-channel connections

A41 and A42; 4-channel connections

Specifications

Model	A23	A42	A41
Rated Output Power(THD+N=1%, 1kHz continue sine wave, all channels driven)	8 Ohms	2x3000W	4x2000W
	4 Ohms	2x5000W	4x3400W
	2 Ohms *	2x7000W	4x4700W
Gain	32dB		
Output RMS voltage (THD+N=1%, 1kHz)	154.9V	126.5V	89.4V
Slew rate	50V/us		
THD+N(10% Rated Power, typical)	0.01%		
IMD-SMPTE (10% Rated Power, typical)	0.01%		
DIM30(10% Rated Power, typical)	0.01%		
Cross-talk(20Hz-1kHz)	≥90dB		
Frequency response (20Hz-20kHz, 8Ohms)	+/- 0.2dB		
Input impedance	20kΩ (Balanced) , 10kΩ (Unbalanced)		
Damping factor (<200Hz 8 Ohms)	≥5000		
SNR(A weighted 20Hz-22kHz)	≥115dB	≥112dB	≥109dB
Main power	100-240VAC +/- 10%, 50-60Hz		
Protection	Under voltage, DC, Over temperature, Overload limiter, Short Circuit protection.		
Size(W×H×D)	483x44x465mm		483x44x370mm
Net weight	12kgs		9kgs

* Test conditions: 20ms, 1kHz, THD+N=1%.

Input sensitivity

GAIN(dB)	A23	A42	A41
32	3.89V	3.18V	2.25V

Outline dimensions

Power consumption and dissipation

Test signal: Pink Noise, bandwidth limited from 22Hz to 22kHz. 1/8 power is typical for program material with occasional clipping. Refer to these figures for most applications.

1/3 power represents program material with extremely heavy clipping.

2x3000W (A23)		Line Current(A)		Power(W)			Thermal Dissipation	
	LOAD	230V	115V	IN	OUT	Dissipated	Btu/h	kcal/h

Warranty

Quint Audio BV warrants the original purchaser and any subsequent owner of each new Quint Audio BV product, for a period of 2 years limited from the date of the original purchase by the original purchaser that the new Quint Audio BV product is free of defects in materials and workmanship.

Quint Audio BV warrants the new product regardless of the reason for failure, except as excluded in this warranty. In order to obtain warranty, you must keep the original sales receipt to establish the exact date of purchase.

Warranty does not cover any product which has been damaged because of any misuse, accident, or negligence. Warranty also does not extend to a new Quint Audio BV product if the serial number has been defaced, altered or removed.

Quint Audio BV will replace defective parts and repair malfunctioning products, regardless of the reason for failure (except as excluded).

Warranty work can only be performed at our authorized service centres.

Disclaimer

Quint Audio BV is not liable for any damage to loudspeakers, amplifiers, or any other equipment that is caused by negligence, misuse or improper installation.

Quint Audio BV is not liable for any incidental damages resulting from any defect in the new Quint Audio BV product. This includes any damage to another product or products resulting from such a defect.

The information contained in this manual has been carefully checked for accuracy, at the time of going to press, however no guarantee is given with respect to the correctness.

Quint Audio BV bv accepts no responsibility for any errors or inaccuracies that may appear in this manual or the products and software described in it.

All specifications in this manual are subject to change without prior notice.

Technical specifications, dimensions, weights and properties do not represent guaranteed qualities.

WEEE Declaration

Electrical and electronic equipment must be disposed of separately from normal waste at the end of its operational lifetime.

Please dispose of this product according to the respective national regulations or contractual agreements.

If there are any further questions concerning the disposal of this product please contact Quint Audio BV.

www.quintaudio.com

EC declaration of conformity

We, Quint Audio BV, Netherlands declare, that the following products;

Quint Audio A23, 2x 3000W@8Ohm power amplifier
Quint Audio A41, 4x 1000W@8Ohm power amplifier
Quint Audio A42, 4x 2000W@8Ohm power amplifier

Are in conformity with the provisions of:
Low Voltage Directive, 2006/95/EC
Electro-Magnetic Compatibility Directive, 2004/108/EC

Applied rules and standards:
EN60065 (Electrical Safety)
EN55103-1 (Emission)
EN55103-2 (Immunity)

Established at Wintelre, Date September 1st, 2024
