

A23

2 x 3000W/8Ohms power amplifier

The Quint Audio A23 is a class-D amplifier with universal mains regulated power supplies with PFC. The front panel is provided with indicators for on, signal present, clip/limit and protect. For each channel a mute button is available. The power to size and weight ratio is extremely high.

FEATURES

- Temperature protection
- Clip limiters
- Short circuit protection
- DC protection
- High frequency filters (35 kHz)
- Switching mode power supply
- Active power factor correction
- High efficiency design (90% lab conditions / 80% real life)
- Low working temperature
- Compact, light weight, road proof design
- Temperature controlled variable fan cooling

Model	A23
SYSTEM PARAMETERS	
output power	
8 Ohm	2x 3000W
4 Ohm	2x 5100W
2 Ohm	2x 7140W
CONNECTORS	
analog line	3 pin XLR
speakers	Speakon-4
power	TRUE PowerCon
GENERAL	
mains	100-240V
AC mains frequency range	50-60Hz
power	t.b.a.
dimensions (wxhxd)	483x44x465mm
weight	12 kgs
ii	i
